

SpEAC
Minutes – May 23, 2019

Administration/Dr. Tate

- Looking at numbers for next year, working on schedules at each school.
- ESY – planning is underway to have another successful ESY year. Will be held at UES.
- RBT Training – finished for this year. Will continue with training next year. Goal is for most paras to participate in training (when appropriate, depending on their role). Some teachers are also requesting training. It is a grant-based training.
- Strategic Plan – will be presented at next BOE meeting in June. Looking to include an SEL program at PK-5 level. In process of trying to find programs used locally that team can visit. Also will incorporate SEL initiatives at WAMS and MHS levels.
- Security Drill – went well. Gained some good information/improvements for the future. No issues with special education population.
- New Elementary Supervisor – hired. 1st day will be July 1 (also 1st day of ESY).
- Addressed questions regarding staff reductions. Shifting numbers/needs, as well as budget process, resulted in some staff reductions, but did not result in a reduction in programs.

SpEAC Business

- Some new members were present. Board introduced themselves.
- SpEAC Leadership – brief discussion about leadership and meeting schedule for next year. Jonnene will schedule an informal meeting with current board and new board to discuss ideas.
