

# Measures of Academic Progress (MAP)

# What is MAP?

---

- MAP (Measures of Academic Progress) are achievement tests delivered by computer to students.

# How does MAP work?

---

- With MAP, the test questions are displayed on the computer screen and you will select an answer using the mouse.
- The difficulty of the test will adjust to your performance. As you answer correctly, the questions will become harder. As you answer incorrectly, the questions will become easier.
- It will build a test just for you!

# Why are you taking MAP tests?

---

- We want to find out exactly where each of you are performing!
- That will best help us know how to help you and what you should be working on to improve the most.

# To take the test:

---

- You are not expected to know the answer to every question – use your best test-taking strategies.
- You must answer every question – you cannot skip any.

### Grandma Wood

Mary Ramsey was born in Tennessee, May 20, 1787. She married at seventeen, had four children, and moved to Georgia where her husband died in 1839.

A decade later Mary moved her family to Missouri and then brought them across the Plains in a covered wagon to Oregon. She rode the entire distance on a mare she named Martha Washington Pioneer.

At the age of 67, she married John Wood in Washington County. John had built the first frame hotel in the town of Hillsboro. Mary outlived John.

She was known as Grandma Wood, and when she became a centenarian, friends and relatives threw a party for her. That day she reminisced, and told about seeing General George Washington and Thomas Jefferson. She claimed that the highlight of her life had been "the time Andy Jackson asked me to dance. He was the best president this country ever had. He knew how
